

The Mighty Jig Worm Head

Rig your favorite ribbon-tail or straight tail worm on the Mighty Jig, pick up your favorite spinning rod and go to work.

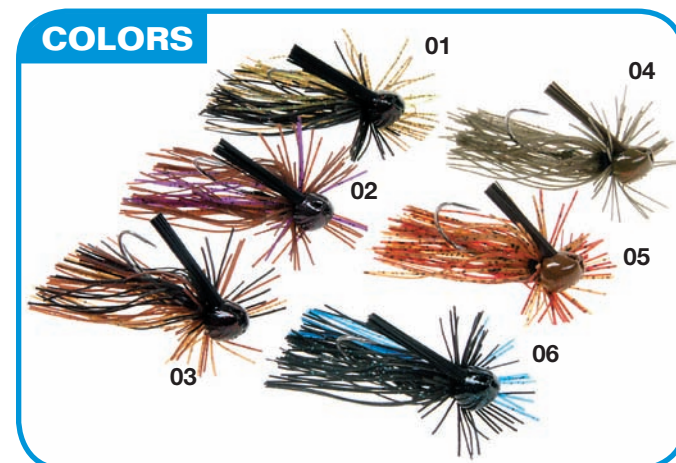

This is quite simply one of the best ways to catch cold front and heavily pressured bass. Unlike other "shakey" heads, the Mighty Jig uses a strong and super sharp 3/0 hook so you can land that 7-pounder when she hits. The Mighty Jig comes in four sizes and three colors. Our pros do well "shaking" small worms around weed edges, docks and other fish holding structure. The Mighty Jig has won major tournaments on Minnesota's Lake Minnetonka, where you need over a 4-pound average of fish to win!

Colors: Black, Brown, Green Pumpkin

A.T. Finesse Jig

The A.T. Finesse jig is the perfect jig for those tougher bite situations or use in ultra-clear water. The finesse jig use a longer shanked-lighter wire hook than we use on the original A.T. jig and a lighter brush guard. This is a great tournament jig as the hook is light enough to penetrate the mouths of spotted bass and smallmouth bass, yet strong enough for giant largemouth. The smaller profile is ideal to fool heavily pressured fish. The A.T. Finesse jig comes in 1/4 oz and 3/8 oz sizes and six fish catching colors.

Skip-N'-Jig

Finally, instead of having to use a jig that was not designed for skipping to fish docks and other overhanging cover, All-Terrain Tackle proves why we are your bass jig specialists. All-Terrain Tackle is proud to introduce the Skip-N-Jig.

The jig comes in 3 sizes, 1/8 oz for those of you who use spinning gear to skip, a 1/4 oz for all around use and a 3/8 oz for those of you who use a baitcaster. We use a super strong Gamakatsu hook, so you will never have to worry about those big bites getting off. The head is powder painted and is 100% chip resistant!! You can run this jig into posts and other objects all day and never worry about the paint. The over-sized plastics holder keeps your trailer in place. This head is made to come through and over brush like all of our jigs, yet it skips like a dream. So remember, there will be other jig companies that will try to introduce jigs to compete with the All-Terrain Tackle Skip-N-Jig, but this is the original!

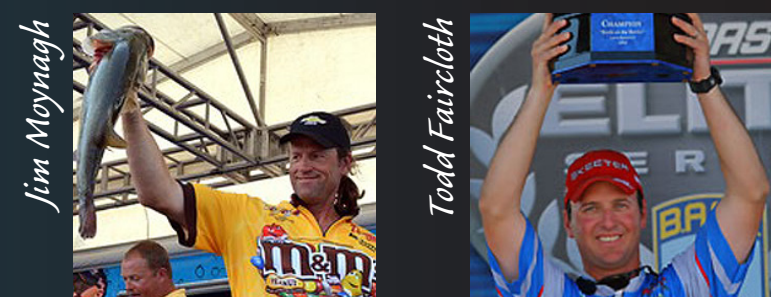

(01)-Peanut Butter/Jelly, (02)-Sunfish, (03)-A.T. Craw, (04)-Green Pumpkin/Purple, (05)-Watermelon/Red, (06)-Black/Blue

The Rattling A.T. Jig

Designed to get bass out of the nastiest cover you can fish!

The rattling A.T. Jig is the one jig that can do it all!

Whether you fish trees, bushes, weeds, rocks or docks, this jig will get the job done. Our "hidden eye" design keeps you fishing instead of pulling weeds off the front of your jig. Add to this our "double BB" rattle system and you can call in those big bass from great distances.

The Rattling A.T. Jig comes in thirteen fish catching colors and has a triple-coated paint job on the head that is designed to last. This jig is built around a super-sharp, extra strong hook that keeps your fish hooked all the way to the boat. This is the jig that started it all and is the first choice of top bass angler all across the country. The secret is out so you had better stock up!

COLORS

(01)-Watermelon/Red Flake, (02)-Texas Craw, (03)-Black/Brown/Amber, (04)-Crawfish (Brown/Org), (5)-Black/Blue, (06)-Sunfish, (07)-Killer Pumpkinseed, (08)-Junebug, (09)-White Baitfish, (10)-Peanut Butter/Jelly, (11)-Green Pumpkin, (12)-Faircloth's Craw, (13)-A.T. Craw

GRASSMASTER WEED JIG

Do you fish heavy weeds, grass mats or hydrilla?

Or is it hyacinths, lily pads, bulrushes and milfoil? Wherever you have bass using weeds for cover you can fish the Grassmaster Weed Jig. The Grassmaster is built on a super-sharp and 2X strong hook for horsing that big fish out of heavy cover, even with braid! The All-Terrain Tackle "hidden eye" design allows this jig to get in and out of the weeds better than any other jig on the market.

The big 1 ounce and 1 1/2 oz are our favorites for flipping super heavy grass mats. This jig was field tested on lake Okeechobee, Florida where the mats can be so thick that raccoons can walk across them without getting their feet wet! We get the same response from every angler who tries this jig. "unbelievable" The Grassmaster Weed jig comes in 5 sizes and colors for every situation.

COLORS

(01)-Watermelon/Red Flake, (02)-Texas Craw, (03)-Black/Brown/Amber, (04)-Crawfish (Brown/Org), (5)-Black/Blue, (06)-Sunfish, (07)-Killer Pumpkinseed, (08)-Junebug, (09)-White Baitfish, (10)-Peanut Butter/Jelly, (11)-Green Pumpkin, (12)-Faircloth's Craw, (13)-A.T. Craw

All-Terrain FOOTBALL Head Jig

Designed by FLW tour pro Jim Moynagh, the first version of this jig helped Jim win over \$250,000 in less than one year!

Jim's Jig is a tournament proven "football head" that literally rolls through rocks and over other hard bottom areas better than any other jig style. The Football Head Jig comes with or without a brush guard and is designed to be fished with a twin-tail grub, crawfish imitator or a regular jig skirt and trailer combination. This jig comes in four sizes (3/8, 1/2, 3/4 & 1 oz.) and in the 8 most popular colors. The All-Terrain Football Head Jig is a must have in every serious bass anglers arsenal. Jim's favorite technique is to "drag" this jig over the rocks with short pulls and adjust his pause time to how the fish are biting.

(01)-Watermelon/Red, (02)-Dark Craw, (03)-Black, (04)-Moynagh's Magic, (05)-Light Craw

COLORS

(01)-Black/Blue, (02)-Rusty Craw, (03)-Watermelon/Red, (04)-Natural Craw, (05)-Moynagh's Magic, (06)-Faircloth's Craw, (07)-Peanut Butter/Jelly, (08)-A.T. Craw

Swim-Jig

One of the hottest techniques on the pro tours is "swimming" a jig.

Finding a jig that is balanced to swim through the water, has a soft weed guard for great hook sets and comes standard with a super sharp hook is hard to do, until now! The All-Terrain Swim Jig has all of these features, so add your favorite trailer and you're ready to go. The All-Terrain Swim Jig comes in the three most popular swimming jig sizes (1/4, 5/16 and 1/2 ounce) and in 10 colors for every different water color that you encounter. Since it's introduction this jig has contributed to several national tournament wins. Try this jig and you will see the difference!
